NILS 2.6.1 · RATTLE CAN COLLECTIVE

End User Licence Agreement

Please read this agreement before installing NILS. By installing or using NILS you agree to it. If you do not agree, do not install NILS.

1. The free trial

NILS may be installed and tried free of charge for 72 hours, counted from the first time it is opened on a computer. During the trial every part of NILS works. When the trial is over, NILS passes audio through unchanged and does no processing until a serial number is entered. The trial is one per computer; it is not extended by reinstalling NILS or by changing the computer's clock, and NILS keeps a small record of the trial's start on the computer for that purpose (nothing about you or your computer is sent anywhere).

2. The licence

NILS (the plug-in, the PREP command-line tool, the manual and the tutorial videos) is licensed to you, not sold. When you have paid for a serial number, Rattle Can Collective gives you a personal, non-exclusive, non-transferable licence to install and use NILS on the computers you own or use yourself, for your own music, including commercial releases. The music you make with NILS is yours: there are no royalties and no credit is required.

3. The purchase is final

Because NILS can be tried in full for 72 hours before any purchase, a serial number, once issued, is not refundable, except where the law of the place you live gives you a right that cannot be waived, or where the store you bought it from offers a refund under its own policy.

4. Your serial number

Your serial number carries your name and is for you alone. Do not share it, publish it or sell it. A serial number that has been shared or published may be deactivated in a later version of NILS.

5. What you may not do

You may not copy NILS for others, rent, lend, resell or redistribute it, or remove or get around its activation or its trial, except as the law expressly allows despite this restriction. You may not reverse engineer, decompile or disassemble NILS except as the law expressly allows.

6. Ownership

NILS and its name, logo and design belong to Rattle Can Collective. Parts of NILS are open-source software made by others; they are used under their own licences, which are listed in THIRD_PARTY_LICENSES.txt, and nothing in this agreement limits the rights those licences give you.

7. Updates

Updates may be offered from time to time. This agreement applies to them unless they come with a new one.

8. No warranty

NILS is provided "as is". Rattle Can Collective makes no promise that NILS will be free of errors or will meet every need, and to the extent the law allows, gives no warranty of any kind, express or implied, including merchantability and fitness for a particular purpose. Keep backups of your sessions and recordings.

9. Limitation of liability

To the extent the law allows, Rattle Can Collective is not liable for any indirect, incidental or consequential damages, or for lost data, recordings or profits, arising from the use of NILS. Its total liability is limited to the price you paid for NILS. Some places do not allow these limits; there, they apply only as far as allowed.

10. Ending the licence

This licence ends if you break this agreement. When it ends, you must stop using NILS and remove it.

11. The law

This agreement is governed by the laws of the State of Washington, USA, without regard to its conflict-of-law rules, except where the law of the place you live says otherwise for consumers.
